## GLOSSARY

[View Full Glossary](#)

- **Accident**

CARFAX receives information on accidents in most states when an official police report is filed. Not all accidents are reported to the Police. The level of detail in the accident record varies by state depending on the state's accident report requirements. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic for any car involved in an accident.

- According to the National Safety Council, Injury Facts, 2003 edition, 12% of the 243 million registered vehicles in the U.S. were involved in an accident in 2002. Over 90% of these were considered minor or moderate.
- CARFAX depends on public and private sources for its accident data. Each one of these sources has different processing times. CARFAX can only report what is in our database on 24.Jun.2006 22:20:12. New data will result in a change to this report.

### North Carolina Police Reports:

- Provide an estimate of the extent of damage in its accident reports for the following:
  - SEVERE: The vehicle cannot be driven from the accident scene due to severe damage or an injury. This level of damage often results in a Salvage or Junk title.
  - MODERATE: The accident damage affects the operation of the vehicle and/or its parts. Examples include broken windows, trunk lids, doors, bumpers and tires.
  - MINOR: The accident damage does not affect the operation of the vehicle. Examples include dented bumpers, fenders, grills and body panels. This level of accident should not compromise vehicle safety.
  - NO DAMAGE: The vehicle was not damaged.
- Are required if the estimated damage exceeds \$1000
- Are released annually to CARFAX in August

- **Failed Emissions Inspection**

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

- **Mileage Inconsistency**

If a more recent odometer reading is less than an older reading but CARFAX is uncertain whether the discrepancy is a rollback or a clerical error, then CARFAX calls it a "Mileage Inconsistency". In this case, you should verify the mileage with your dealer or a qualified mechanic.
